

Residential Pressure Reduction Rebate Program

In order to encourage the conservation of water and to reduce run-off, specifically through the reduction of water pressures that contribute to over-irrigating, the Town of Fairview has adopted a rebate program for pressure reduction devices installed and utilized on certain residential properties.

To be eligible, a resident must have an active and up-to-date Town of Fairview residential utility account.

The program starts on June 5, 2007; therefore, only approved pressure reduction devices purchased on or after that date will be eligible for a rebate.

Initial water pressures must be 90 psi or higher.

Applications must be received within 120 days of purchase, and must be submitted on an official completed town rebate form.

All rebates are subject to the availability of funds during any given fiscal year. Requests will be processed and funded on a first-come, first-served basis.

Approved rebates shall be given in the form of a credit to the applicant's water utility account.

Rebates will be in an amount equal to the purchase price or \$150.00, whichever is less.

Residential Pressure Reduction Rebate Form

Getting your pressure reduction rebate is easy. Simply hire a licensed plumber to test your water pressure, and if it is more than 90 psi, have him install a water pressure reduction device. Then, complete and mail (or drop off) this rebate application form, along with original copies of your receipt and proof of purchase. A town representative will visit your site within about thirty days to ensure the device is properly installed and functioning. If approved, your rebate, up to \$150.00, will show up as a credit on your water bill.

PLEASE PRINT LEGIBLY

Town of Fairview Utility Account Number: _____

Name of Account Holder: _____

Phone Number: _____ Street Address: _____

Beginning water pressure: _____ Ending water pressure: _____

Type of device installed: _____

Name and address of licensed plumber: _____

I agree to keep the pressure reduction device in place as long as I reside in the Town of Fairview.

I understand a representative of the town will verify the installation of the device and the water pressure.

I understand the town does not endorse specific brands, products, or dealers; nor guarantee materials, workmanship, performance, or durability of the qualifying items.

I understand I may receive reimbursements not to exceed the amount outlined in the program guidelines.

The town will process my rebate in the form of a credit to my water account.

I understand that an incomplete application will result in a rebate delay.

I certify that the information on this application is true and correct to the best of my knowledge.

Participant Signature: _____ Date: _____

DON'T FORGET:

- Copy of original invoice showing date (*June 5, 2007 or later*) and place of sale; a description of the purchase; the plumber's name, address and license number; and the cost of the work.
- Retain a copy of all material submitted to the town for your records.
- Return application to:

Town of Fairview
ATTN: Water Pressure Reduction Rebate
500 S. Hwy. 5
Fairview, TX 75069

Please remember that a number of other water conservation techniques can help reduce your water bill, and that the town offers rebates for rain barrels, freeze sensors, and certain low water using appliances.

When installing a hot water heater, always make sure there is a pop-off valve and a drain and/or pan to help protect your home and your heater.
