Landscape watering with sprinklers or irrigation systems at each service address is now **limited to once every two weeks**. The weeks highlighted in green on this watering schedule reflect approved watering weeks for the Town of Fairview.

The town will continue to use the adopted zone designation system in which residents and businesses are allowed to water. This system is based on being located in one of four zones that the town has been broken into for watering purposes. The zone you're in determines which day watering is allowed.
