■ % of Total Stops	49.12%	19.06%	20.19%	11.17%

Issues Associated with “Stop Data”

- Group data to explain individual officer decisions
- A valid measure of the driving population does not exist
 - A replacement measure is used, being census data
- Officers knowing the race of the individual they stop only 49 (out of 3,007) times or 1.6%

Comparative Analysis #2
