WHEREAS the Town, therefore, desires to grant to Republic Services the right to operate as the sole provider for Town-provided services of collection, transportation, and disposal of residential, commercial, and industrial (both permanent and temporary) Garbage and Trash, Construction and Demolition Debris, and Recycling, subject to the terms of this Contract. Additional questions, service requests and concerns, should be directed to the Republic Services at 972-422-2341 or via their website at RepublicServices.com/Customer-Support.

RESIDENTIAL WORK BEING DONE:

- ☐ Addition ☐ Pergola ☐ Remodel
☐ Detached Accessory Structure ☐ Residential Demo

Scope of Work: _____

Valuation of work \$: _____ Square Footage _____ in/ft (**Total under roof**)

Subject property is _____ or is not _____ within the flood hazard area. Required lowest floor elevation is _____.

NOTE: There may be required forms and information sheets for the specific type of work being done.. Please contact the permits department for required submittal.

Remote Virtual Inspections RVI Instructions:

- All remote inspections should be scheduled a minimum of one business day prior to the requested date.
- Schedule inspection either on-line or by telephone. inspections@fairviewtexas.org / 972-886-4250
- Schedule after-hours or emergency inspections on a case-by-case basis. Additional fees apply.
- Video telephony platform: Face-time (Note: Please leave a call back number for the inspector if you are requesting face time.)
- When scheduling the inspection, provide the address, permit number, and type.
- Remote virtual inspection (RVI) may be done via live stream, pictures, video or any combination.

Electric Provider: _____ Gas Provider: _____ **Note: Please allow 7-10 business days for processing**

NOTICE TO APPLICANT: This permit is issued based on information furnished in this application and on any submitted plans and is subject to the provisions and requirements of the Town of Fairview Code of Ordinances and any other applicable ordinance. This permit is used only for the purpose of allowing construction of a building or structure conforming to the codes and ordinances of the Town, regardless of information and/or plans submitted. Separate subcontractor permits are required. The permit holder is required to use only subcontractors registered with the Town of Fairview, where such a requirement is applicable.

Information not received thru permits@fairviewtexas.org will not be processed.

Asbestos Removal

Survey Requirements for Commercial & Public Buildings

If an owner of a public or commercial building or more than four units for residential will be disturbing any building materials during his or her renovation or demolition, the owner is required to have the materials surveyed for asbestos by a licensed asbestos professional. A survey is required regardless of the age of the building.

One exception to that rule can be found in the Texas Asbestos Health Protection Rules in section 295.34. It states that if a licensed asbestos inspector, a Texas-registered architect, or a Texas licensed professional engineer reviews all the building's material safety data sheets and, subsequently, provides a written certification that no materials contain asbestos, then a building owner can use that certification in lieu of an asbestos survey.

All municipalities must ensure that building owners have an asbestos survey or written certification as described above prior to issuing any building permits for renovations or demolition. Cities do not have the authority to enforce the state and federal asbestos regulations; however, they do have the authority to withhold their own city permits if the asbestos requirements haven't been met (this law went into effect in 2002).

Building owners are held responsible for complying with these asbestos regulations. In many cases, owners may have their contracted asbestos professionals ensure that the requirements are met; however, the responsibility lies solely with the building owner.

The Fairview Code of Ordinances, sections 14.02.204 (c) 8, 14.02.254 (c) 8 14.02.304 (c) 8, and 14.02.354 (c) 8 limit the maximum ground coverage of all buildings and impervious surfaces to 35% in the RE-1 district, 30% in the RE-1.5 district, and 25% in the RE-2 & RE-3 districts.

Violations may result in citation and removal of structures exceeding the total allowed impervious surface area. To comply with the ordinance, please complete the following form and have it notarized.

OUTDOOR LIGHTING CONFORMANCE CERTIFICATION

(This form covers all outdoor lighting excluding street lights and parking lot lights)

Town of Fairview Lighting Regulations

- Article 3.14 of the Town of Fairview Code of Ordinances
- Article 5 of the Commercial Plan Development District (CPDD) Standards and Guidelines (Adopted by Ordinance 2014-9-11B, as amended)

Please check if residential or commercial:

☐ Residential ☐ Commercial

Fairview Address:

Please check the correct lighting district (Map located on page 3):

☐ District 1 ☐ District 2

If in District 1, Article 3.14 of the Town of Fairview Code of Ordinances and Article 5 of the CPDD Standards and Guidelines requires the following (check the following if compliant):

- ☐ - All exterior lighting fixture details have been submitted to the Town of Fairview for review and have been approved Article
- ☐ - Lighting glare from any lighting source will not be directly visible from public view or from a residential unit and a maximum average of 1-foot candle at residential property lines has not been exceeded
- ☐ - All fixtures are full cutoff. Any proposed fixtures not meeting the full cutoff requirement must be approved by minor warrant. All outdoor lighting fixtures approved by minor warrant shall not exceed 20,000 lumens per developed acre
- ☐ - Lighting levels conform with standards established in Article 3.14 of the Town of Fairview Code of Ordinances and Article 5 of the CPDD Standards and Guidelines
- ☐ - Lighting elements do not include flood, cobra head (unless LED), HID – mercury vapor and sodium vapor, high pressure sodium and fluorescent lights (except fluorescent bulbs that screw into standard socket fixtures)
- ☐ - All other applicable provisions of Article 3.14 of the Town of Fairview Code of Ordinances and Article 5 of the CPDD Standards and Guidelines have been met on this site

If in District 2, Article 3.14 of the Town of Fairview Code of Ordinances requires the following (check the following if compliant):

- ☐ - All exterior lighting fixture details have been submitted to the Town of Fairview for review and have been approved
- ☐ - All outdoor lighting fixtures have been designed, located, installed, aimed downward or towards structures, retro fitted if necessary, and maintained in order to prevent glare, light trespass, and light pollution
- ☐ - Light trespass at property lines does not exceed the maximum of 0.20-foot candles
- ☐ - Light fixtures conform with shielding requirements applicable to fully shielded, partially shielded, and unshielded
- ☐ - Lighting levels conform with standards established in Article 3.14 of the Town of Fairview Code of Ordinances
- ☐ - All lamp types for new security lights are LED, metal halide, high-pressure sodium or low-pressure sodium. Security lights intended to illuminate a perimeter (such as a fence line) shall include motion sensors and be designed to be off unless triggered by an intruder located within five feet of the perimeter. The zone of activation sensors must be within the property boundaries of the property wishing to be illuminated.
- ☐ - A maximum limit of 50,000 lumens per developed acre for all lighting irrespective of shielding conditions has not been exceeded. Unshielded and partially shielded lighting are limited to a maximum of 10,000 lumens per developed acre
- ☐ - All floodlighting, that is not motion activated, is full cutoff or permanently directed downward
- ☐ - Upward lighting is used in the form of one narrow cone spotlight for flags, statues, public art or other objects of interest that cannot be illuminated with down-lighting
- ☐ - All other applicable provisions of Article 3.14 of the Town of Fairview Code of Ordinances have been met on this site

I, _____, do hereby certify that the exterior lighting
printed name

meets or exceeds the outdoor lighting standards of the Fairview Code of Ordinances.

Examples of Acceptable / Unacceptable Lighting Fixtures

Unacceptable / Discouraged

Fixtures that produce glare and light trespass

Acceptable

Fixtures that shield the light source to minimize glare and light trespass and to facilitate better vision at night

Dark Sky Ordinance

Fairview is dedicated to preserving the idyllic natural setting of this region. In 2006, we adopted a series of restrictions and guidelines designed to limit glare, reduce unnecessary light and control other light pollution. Our Dark Sky Ordinance helps to ensure adequate lighting only where it is needed in order to reduce spillover light between properties, increase safety for travelers and increase aesthetic value for our town. Our residents are able to take full advantage of a starry sky surrounded by plenty of nature, an experience unique to other cities in the DFW area.

Purpose and Intent: To regulate the installation and use of outdoor lighting fixtures in the town. This will improve night-time public safety, utility and security by restricting the night-time emission of light rays. These emissions are sources of light that trespass and cause unnecessary glare which are detrimental to the safety and security of persons, property and vehicular traffic.

Below is a compressed checklist for District 1 to act as an aid in compliance and not to replace or severe any of the requirements of Chapter 3 Building Regulations, Article 5 of the Commercial Plan Development District (CPDD) Standards and Guidelines, hereon referred to as the CPDD Security and Guidelines:

- Lighting glare from any lighting source will not be directly visible from public view or from a residential unit and a maximum average of 1-foot candle at residential property lines has not been exceeded
- All fixtures are full cutoff. Any proposed fixtures not meeting the full cutoff requirement must be approved by minor warrant. All outdoor lighting fixtures approved by minor warrant shall not exceed 20,000 lumens per developed acre
- Lighting levels conform with standards established in Article 3.14 of the Town of Fairview Code of Ordinances and Article 5 of the CPDD Standards and Guidelines
- Lighting elements do not include flood, cobra head (unless LED), HID - mercury vapor and sodium vapor, high pressure sodium and fluorescent lights (except fluorescent bulbs that screw into standard socket fixtures)

Below is a compressed checklist for District 2 to act as an aid in compliance and not to replace or severe any of the requirements of Chapter 3 Building Regulations, Article 3.14 of the Town of Fairview Code of Ordinances:

- All outdoor lighting fixtures have been designed, located, installed, aimed downward or towards structures, retro fitted if necessary, and maintained in order to prevent glare, light trespass, and light pollution
- Light trespass at property lines does not exceed the maximum of 0.20-foot candles
- Light fixtures conform with shielding requirements applicable to fully shielded, partially shielded, and unshielded
- Lighting levels conform with standards established in Article 3.14 of the Town of Fairview Code of Ordinances
- All lamp types for new security lights are LED, metal halide, high-pressure sodium or low-pressure sodium. Security lights intended to illuminate a perimeter (such as a fence line) shall include motion sensors and be designed to be off unless triggered by an intruder located within five feet of the perimeter. The zone of activation sensors must be within the property boundaries of the property wishing to be illuminated.
- A maximum limit of 50,000 lumens per developed acre for all lighting irrespective of shielding conditions has not been exceeded. Unshielded and partially shielded lighting are limited to a maximum of 10,000 lumens per developed acre
- All floodlighting, that is not motion activated, is full cutoff or permanently directed downward
- Upward lighting is used in the form of one narrow cone spotlight for flags, statues, public art or other objects of interest that cannot be illuminated with down-lighting
- Accent lighting may shine upward if the light is contained by the structure and the lamps are low intensity

OUTDOOR LIGHTING STANDARDS ARE DIFFERENT FOR DISTRICT 1 AND 2, BE SURE AND CHECK WHICH STANDARDS APPLY TO YOUR DEVELOPMENT.

Thank you for helping Fairview maintain its beauty at night as well as the daytime country living that we have all come to enjoy.

Violations of move-ins without a C.O. will result in loss of any early meter sets. If you have any questions, please contact the inspector.

SOLID WASTE SERVICES CONTRACT

This Solid Waste, Construction and Demolition Debris, and Recyclable Materials Collection, Transportation, Disposal, and Processing Contract ("Contract"), is entered as of the effective date by and between the Town of Fairview, Texas, a Texas home rule municipality (hereinafter called "Town"), and Allied Waste Systems Inc., D/B/A Republic Services of Plano, hereinafter called "Contractor," acting by and through their duly qualified representatives (Town and Contractor collectively referred to herein as "Parties" and individually as "Party").

WHEREAS the Town, therefore, desires to grant to Contractor the right to operate as the sole provider for Town-provided services of collection, transportation, and disposal of residential, commercial, and industrial (both permanent and temporary) garbage and trash, construction and demolition debris, and recycling, subject to the terms of this Contract; and

WHEREAS Contractor desires to operate and maintain the services of collection, transportation, and disposal of residential, commercial, and industrial (both permanent and temporary) garbage and trash, construction and demolition debris, and recycling, subject to the terms of this contract,

NOW, THEREFORE, BE IT ORDAINED BY THE TOWN COUNCIL OF THE TOWN OF FAIRVIEW, TEXAS:

No commercial container, dumpster, or roll-off container should be overloaded to the point where the lid or covers, will not close, or the tarp will not properly cover the load. The Contractor may decline to empty an overloaded container until the Customer unloads the dumpster or roll-off container to the point where the lid(s) will close, or where the load may be safely tarped before transport.

To the extent allowed by law, this Contract will provide exclusive rights to Contractor for the collection of construction and demolition debris, and waste materials, such as carpeting, roofing, drywall, etc., resulting from remodeling and construction activities, which are generated in quantities requiring a roll-off container for onsite storage, collection, and transport.

Additional questions, service requests and concerns, should be directed to the Republic Services at 972.422.2341 or via their website at RepublicServices.com/Customer-Support.

Drainage and Grading Affidavit

I, _____, by filing this affidavit certify that I am the owner or authorized agent of _____; and further, certify that I have enclosed a record set of, or photocopy thereof, the Grading and Drainage Plans (*if disturbing more than one(1)acre*) to be included as part of the Building Permit Application for the following:

LOT: _____ **BLOCK:** _____ **SUBDIVISION:** _____

PROPERTY ADDRESS: _____

Furthermore, I certify that the lot grading of the aforementioned parcel will be consistent with the submitted plans. If it is determined by the Town of Fairview at a later date that the drainage configuration does not function as intended because the grading is not consistent with the attached plans, I will assume full responsibility to make corrections in order that the drainage will function as intended.

Guidelines for Preparing Stormwater Pollution Prevention Plans for Construction Activities

Areas of Soil Disturbed	Submittal Requirements
Less than 1 acre and the site is not part of a larger common plan of development	Erosion Control Plan
Less than 1 acre and the site is part of a larger common plan of development outside urbanized area	
Less than 1 acre and the site is part of a larger common plan of development inside urbanized area	SWPPP
1 acre up to less than 5 acres	
5 acres and larger	SWPPP and copy of NOI filed with the State

Erosion Control Plans for a construction site are measures to prevent sedimentation and debris from going over sidewalks, into streets, gutters, inlets, drainage features, and neighboring properties during construction activities. Contractors and owners are responsible for keeping soil, sediment, and debris contained on the construction site and return soil and sediment to the areas to be stabilized, while properly disposing of debris. Plan of area must show entire site, limits of soil disturbance, location of construction entrance(s), and sediment barriers along the down slope perimeter of the disturbed areas. Stormwater Pollution Prevention Plans (SWPPP) include all elements of erosion control plans plus pollution control measures. When a SWPPP is required, the SWPPP. Supplement to Permit Application form must accompany the construction and/or building plan submittals in addition to an adequate plan describing and ensuring implementation of practices that will be used to reduce the pollutants in stormwater discharges associated with construction activity at the construction site and assure compliance with the terms and conditions of a TCEQ or EPA stormwater permit. The contents and minimum requirements of a SWPPP can be found in the TPDES General Stormwater Requirements for Construction Activities dated March 5, 2008, or the most recent version as the regulations are updated. When applicable, the Notice of Intent (NOI) sent to the state shall be submitted to the Town electronically.

DISCLAIMER: The purpose of this guidance document is to assist the Owner and Operator of a construction activity within the Town of Fairview Ordinances. By providing this general guidance, the Town is not providing a guarantee of compliance or protection from enforcement under Town Ordinances. The Owner and Operator of a construction activity are fully responsible for being familiar with all the ordinance requirements and ensuring their construction activity is following the Town Ordinances and other state and federal regulations that are applicable to the construction activity.

Inspection Request

Inspection hours are from 8:00am-4:00 pm Monday – Friday. To request your inspection please call the Inspection Request line at 972-886-4250 or at inspections@fairviewtexas.org before 4:00 PM to receive your inspection the next business day. If you call in your inspection on Saturday or Sunday you will not receive your inspection until Tuesday.

Please provide:

1. Your name
2. The address where work is to be inspected. Suite Numbers. Lock Box code and instructions to the inspector if needed for entry. Example: "Access hatch is in electrical room on north side of building" or "Homeowner will meet you between 11am and 1pm"
3. Call back telephone number/ onsite contact if required.
4. Permit number
5. Type of inspection
6. Time you are requesting the inspection to take place.
7. If you are requesting an RVI inspection, please have all photos uploaded to your permit prior to calling for RVI inspection.

Please note: When calling for inspections, the inspection will be scheduled for the next business day. If you need same day inspection, we must receive it by 8:00am or it will be assigned the next business day.

Emergency Inspections may be called in at anytime and will incur a \$75.00 inspection fee and must be paid prior to inspection. Emergency inspections on weekends will incur a \$150 inspection fee and you must call 469.628.4913. Please leave detailed voice mail and return contact number.
