CERTIFICATION OF OSSF REQUIRING MAINTENANCE

According to the Texas Commission Environmental Quality (TCEQ) Rules for On-Site Sewage Facilities, this document is filed in the Deed Records of COLLIN COUNTY, Texas.

The Texas Health and Safety Code, Chapter 366 authorizes the Texas Commission on Environmental Quality (TCEQ) to regulate on-site sewage facilities (OSSFs). Additionally, the Texas Water Code (TWC), Section 5.012 and Section 5.013, give the TCEQ primary responsibility for implementing the laws of the State of Texas relating to water and adopting rules necessary to carry out its power and duties under the TWC. The TCEQ, under the authority of the TWC and the Texas Health and Safety Code, requires owner's to provide notice to the public that certain types of OSSFs are located on specific pieces of property. To achieve this notice, the TCEQ requires a deed recording. Additionally, the owner must provide proof of the recording to the OSSF permitting authority. This deed certification is not a representation or warranty by the TCEQ of the suitability of this OSSF, nor does it constitute any guarantee by the TCEQ that the appropriate OSSF was installed.
